PRESIDENT'S FOREWORD

As we embark on a new chapter in the evolution of architectural education and practice, it gives me immense pleasure to announce that the Council of Architecture will be conducting the NATA 2025 examination in a refreshed format. This updated approach is the result of extensive feedback from stakeholders across the nation, gathered through a comprehensive survey. We have carefully considered the needs of students and aligned the examination process with the latest trends and challenges facing the architecture profession today, ensuring that it encourages both creativity and practicality.

Architecture, in its essence, is much more than the design of spaces; it is an expression of society's values, aspirations, and cultural identity. It is a field where innovation meets functionality, where tradition coexists with progress. Architects, as creators of the built environment, play a vital role in shaping communities, and their work reflects the values and heritage of the places they inhabit. As the profession continues to evolve, it is crucial that we equip our future architects with the skills, creativity, and forward-thinking mindset necessary to face the challenges of the 21st century.

The role of the architect is both prestigious and impactful. It requires not only a deep understanding of art and technology but also a commitment to the well-being of society. Architecture addresses vital aspects of human life—health, safety, sustainability, and the preservation of cultural heritage—while fostering innovation in response to the demands of modern living.

The National Aptitude Test in Architecture (NATA) serves as a critical first step for students aspiring to enter this rewarding profession. The redesigned format for NATA 2025 aims to assess a candidate's aptitude for architecture in a manner that is both rigorous and reflective of the dynamic nature of the field. It will identify individuals who have the potential to contribute meaningfully to the growth of the profession and, by extension, to the nation's progress.

This is a pivotal time for the architecture profession in India. As Prime Minister Shri Narendra Modi Ji has aptly stated, we are entering the 'Amrit Kal' of Indian civilization, where the country's construction and infrastructure activities are growing at an unprecedented pace. Architects have an essential role to play in this transformation, contributing to the creation of sustainable, innovative, and culturally resonant spaces that will shape the future of our nation.

On behalf of the Council of Architecture, I extend my best wishes to all the candidates who will be appearing for NATA 2025. Your journey toward becoming an architect is a promising and exciting one. I encourage you to embrace this challenge with passion and determination, knowing that you are taking the first step toward a fulfilling career that will allow you to shape the world around you.

INTRODUCTION

The Council of Architecture (CoA) is an autonomous statutory body of the Ministry of Education, Government of India constituted under the provisions of the Architects Act, 1972, and came into force with effect from 1st September, 1972. The Act provides for registration of Architects, standards of education, recognized qualifications and standards of practice to be complied with by the practicing architects. The Council is vested with the responsibility of maintaining the register of architects as well as regulating the Architecture education and practice of the Architecture profession throughout India. For this purpose, the Government of India has framed Rules and Council has framed Regulations as provided for in the Architects Act, with the approval of the Government of India.

Any person desirous of carrying on the profession of Architecture and using the title and style of 'Architect' must have registration with the Council of Architecture. For the purpose of registration, one must undergo education in accordance with the Council of Architecture Minimum Standards of Architectural Education Regulations, 2020, and possess the recognized qualification as appended to the Architects Act. If any person falsely represents or claims to be a registered architect or uses any words or letters to suggest that she/he is an architect or misuses the title and style of architect, such acts are tantamount to committing of a criminal offence punishable under the Architects Act, 1972.

The practice of profession of an architect is regulated under the Architects (Professional Conduct) Regulations, 1989 and amended in 2003, which prescribe the professional conduct, ethics and etiquette, conditions of engagement and scale of charges, architectural competition guidelines etc., Pursuant to the abovementioned Regulations, the Council has framed guidelines governing the various aspects of practice.

Presently, there are about 370 Institutions imparting architectural education in India leading to recognized qualifications. The minimum standards of education to be imparted in architectural institutions (constituent colleges/ departments of universities, deemed universities, affiliated colleges/ schools, IITs, NITs and autonomous institutions) are prescribed and monitored by Council of Architecture by way of Regulations and norms & standards prescribed from time to time, which set forth the requirement of eligibility for admission, course duration, standards of staff & accommodation, course content, examination etc.

The CoA oversees the maintenance of the standards periodically by way of conducting inspections. The CoA is required to keep the Central Government informed of the standards being maintained by the institutions and is empowered to make recommendations to the Government of India with regard to recognition and/or de-recognition of a qualification.

About NATA

National Aptitude Test in Architecture (NATA) is being conducted by COA since 2006, to qualify for the admission to Bachelor of Architecture. The Council has prescribed CoA (Minimum Standards of Architectural Education) Regulations, 1983 and the CoA (Minimum Standards of Architectural Education) Regulations, 2020, with the approval of the Central Government in terms of Sections 21 & 45 of the Architects Act, 1972.

These Regulations prescribe that the candidate needs to qualify an Aptitude Test in Architecture conducted either by NTA (i.e. JEE) or NATA conducted by the Council for admission to the Architecture degree Programme.

The actual admissions shall be carried out only by the concerned competent authorities of the respective States / UT's etc., Institutions based on valid NATA score and eligibility criteria prescribed by CoA and concerned authorities from time to time.

NATA is an Aptitude test that assesses a candidate's ability through a variety of testing formats.

NATA measures the aptitude of the applicant for the specific field of study, i.e. Architecture, through assessment of cognitive skills, visual perception and aesthetic sensitivity tests, logical reasoning and critical thinking ability etc., besides the learning that the candidate has acquired over the past years.

In order to provide opportunities to a large number of aspirants to join Architecture Programme, the Council will be conducting NATA-2025 Aptitude Test for admissions into approved Architectural Institutions for the academic session 2025-2026, on designated Fridays & Saturdays in two sessions starting from March 2025 to June, 2025.
